

ARTICLES

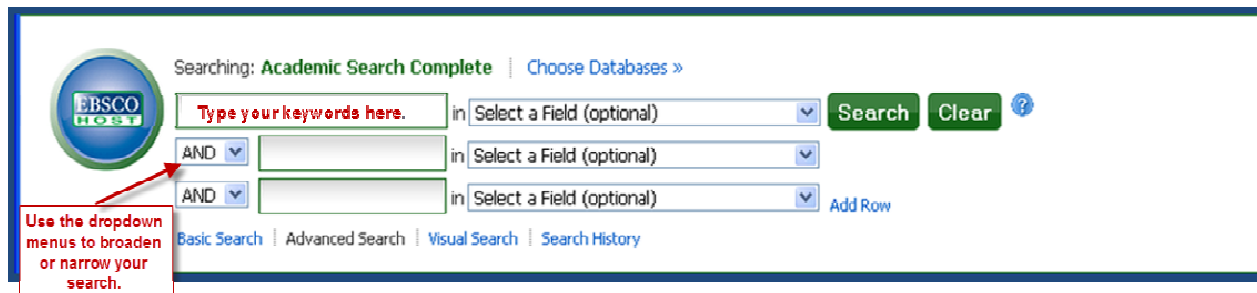

STEP 1: Start at the Merrill Library home page:
<http://www.umm.maine.edu/merrill-library>

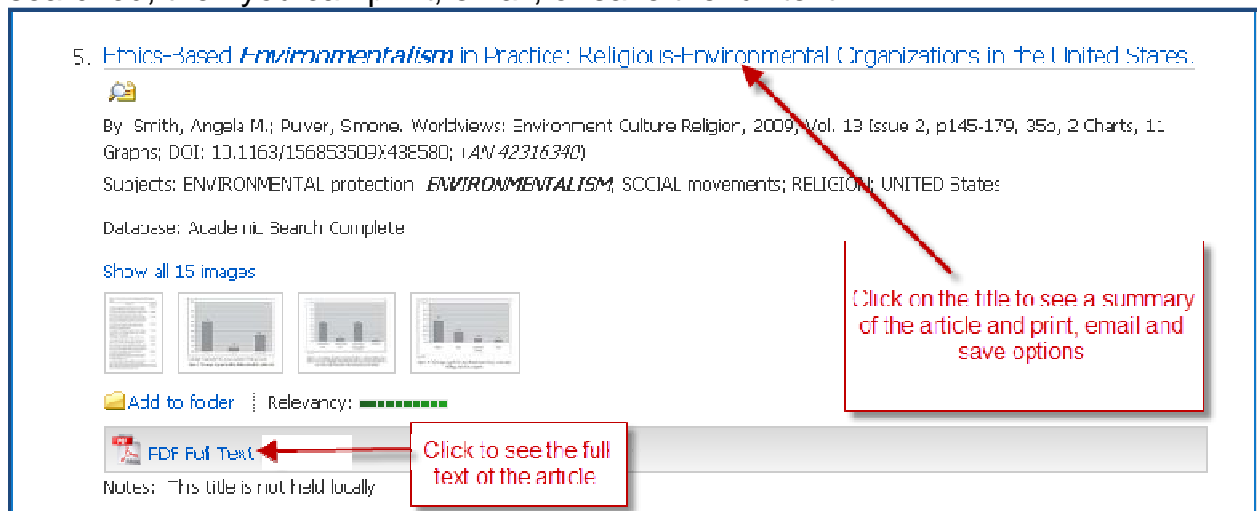

Click on **Find Articles by Database Title**, and choose the appropriate database for your topic. Or choose **Find Articles by Database Subject**. Ask a librarian for recommendations if you're not sure which databases to use.

- Remember: You will need your library barcode to access databases from off-campus.

The search screen is on the database home page. Begin by typing your keywords into the search box. To narrow or broaden your search, add more keywords and combine them with Boolean operators (AND, OR, NOT) using the drop-down menus. Click the Search button.

STEP 2: If the article is **Full Text (HTML, PDF, or Linked)** in the database searched, then you can print, email, or save the full text.

STEP 3: If there is no full text in the database, click **ArticleLinker** to see if the full text is available in another database.
